

AWG 560 L

ACCESSORIES

PRODUCT-NO.: 231041

Thermally insulated external wall outlet for air routing from air source heat pumps installed indoors, with oval connection.

The main features

Condensate run marks on the wall face are prevented by a wide drip edge on the frame

Integral rodent guard prevents small animals and leaves getting in

Good protection from weather and low pressure losses, thanks to optimised fin geometry

Type	AWG 560 L
Part no.	231041

Technical data

Height	477 mm
Width	878 mm
Depth	625 mm
Nominal diameter	560 mm
Min. outlet aperture	830x430 mm
Wall thickness	280 - 500 mm
Max. air flow rate	3500 m ³ /h
Colour	Aluminium, anodised
Material	Sheet steel
Version	For light well version

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
