

SBP 700 E

HEATING BUFFER CYLINDER

PRODUCT-NO.: 185459

The perfect complement to your heat pump

Make use of thermal energy Have you decided on an environmentally responsible heat pump and are now looking for an accompanying buffer cylinder? This model for family homes is the perfect choice. If necessary, you can also connect an electric heater to the cylinder for a plentiful heat supply. If your heat pump supports reverse operation, the appliance can also store the water required for cooling.

Our range also includes a model equipped with a special indirect coil. This allows you to make efficient and effective use of the heat yielded by your solar thermal system.

The main features

Designed for different heat pumps

Cooling operation possible

Individual cylinder selection subject to system size

Highly effective thermal insulation

Type	SBP 700 E
Part no.	185459

Technical data

Standby energy consumption/24 h at 65 °C	2.20 kWh
Nominal capacity	720 l
Height	1890 mm
Diameter incl. thermal insulation	910 mm
Height when tilted	2000 mm
Weight	185 kg
